EXPERIENCE

Full Stack Mobile Developer

Jan 2020 - Present

Huawei Technologies

Dubai, UAE

- Developed an app that improved Huawei customer service efficiency by tracking device sales and customer info using Kotlin, Android SDK, Jetpack Compose and Next.js.
- Led the development of "APPFinder," an Android app store that helped 2 million Huawei users download apps, utilizing MVVM architecture, Kotlin, coroutines, flow, and DI.
- Integrated Huawei Mobile Services (HMS) into high-profile Android apps like Carrefour, Dubai Police, Virgin Mobile, and many more.
- Spearhead the development of various smartwatch apps for top companies including Emirates Airline, Tawasal, Steppi, and Prayer Now using Java and HarmonyOS SDK (Android-based).
- Developed a platform automating routine tasks, saving colleagues 2 hours daily, using Next.js, MongoDB and Node.js.
- Enhanced analytics collections for a game by building a PHP service in Laravel.
- Increased app update efficiency with automated pipelines for Huawei AppGallery on Microsoft Azure.
- Brought 50+ developers to the HMS ecosystem by hosting workshops, writing technical articles, and speaking at Huawei tech talks.
- Provided technical support for HMS, Google Mobile Services (GMS), and Firebase.
- Delivered technical solutions for Android apps across diverse sectors, enhancing functionality and performance.
