EXPERIENCE

Full Stack Mobile Developer   **Jan 2020 - Present**

HUAWEI Technologies   **Dubai, UAE**

- Improved HUAWEI customer service efficiency by developing an app to track device sales and customer information using Kotlin, Android SDK, Jetpack Compose, and Next.js.
- Led the development of "APPFinder," an Android app store that enabled 2 million HUAWEI users to download apps, leveraging MVVM architecture, Kotlin, coroutines, Flow, and dependency injection (DI).
- Spearheaded the development of smartwatch apps for leading companies such as Emirates Airline, Tawasal, Steppi, Dubai Sports, and Prayer Now using Java, JavaScript, HTML, and the HarmonyOS SDK.
- Integrated HUAWEI Mobile Services (HMS) into native and React Native apps for major partners including Carrefour, Dubai Police, Virgin Mobile, Visit Abu Dhabi and others.
- Optimized HMS integration in React Native apps by creating custom plugins for HUAWEI's Site and Location SDKs, reducing development time and improving developer experience.
- Developed an automation platform using Next.js, MongoDB, and Node.js, saving colleagues 2 hours daily by streamlining routine tasks.
- Enhanced game analytics by building a PHP service with Laravel, improving data collection and insights.
- Boosted app update efficiency by implementing automated CI/CD pipelines for HUAWEI AppGallery using Microsoft Azure.
- Brought 50+ developers to HMS ecosystem by hosting workshops and speaking at tech talks.
- Provided technical support for HUAWEI, Google and Firebase services to high-value HUAWEI partners.

Full Stack Web Developer   **Nov 2018 - Oct 2019**

Algeratec Technologies   **Constantine, Algeria**

- Saved 4 weeks of development time by automating Angular project creation with Node.js scripts, maximizing code reuse across projects.
- Helped manage our clients by creating a dashboard using Angular and Laravel.
- Improved the company's brand image by designing a modern website using WordPress.
- Automated data collection from various hotel websites by developing a scraping tool using Goutte/php.
- Eased the integration of our API by developing a documentation page using Swagger-UI.

Android Developer   **Mar 2016 - Sep 2019**

Independent   **Constantine, Algeria**

- Developed and published 25+ Android apps for different purposes using modern Android Technologies.
- Specialized in JAVA, mastering its core and advanced features.
- Designed and implemented 3 RESTFUL APIs using Laravel.
- Integrated Firebase, Google Authentication, Google Maps, and Google Drive API.
- Built 2 Android games using the LibGDX framework, focusing on performance and engagement.

EDUCATION
